

## **Outdoor artist's needed**

### **F.L.O.W.**

Friends landscaping our world is a non-profit community service project. In brief we will be landscaping lower income family's homes for free (with the help of community support). To promote this we will be having a garden tour and a garden party. We are looking for out-door art to display in the yards the day of the tour and then auction off at the garden party. You can name your price you would like to receive for the art.....we will start the bidding from there.....anything over and above this price goes to the fund raiser. Some proceeds will be used for administration purposes.

We will not know how many homes we will have to landscape till the end of February, however nobody will be turned away, if needed we will put more then one piece of art in a yard. You can submit as many pieces you would like.

Here is the blog site for more info on this project: <http://friendslandscapingourworld.blogspot.com/>
